Software Engineer

SUMMARY

I am a highly motivated Computer and Information Systems Engineering graduate from NED University, passionate about technology-driven solutions. Skilled in software development, testing, and system enhancements.

WORK EXPERIENCE

System Enhancement Officer

2024-present

Meezan Bank Limited – Head Office

- Supported the design, enhancement, and testing of banking solutions, contributing to projects such as Digital Notice Board, Push Statement, QR Code Cheque, Image-Based Clearing, Whatsapp banking, Temenos Core Banking Portal, and Mobile Applications.
- Managed change requests (CRs) in Temenos (T24), ensuring smooth integration of new functionalities and improvements.

Project Manager and Mentor

2023-2024

APTECH

- Supervised and collaborated on freelancing projects with students to enhance practical learning.
- Lead multiple student projects, providing mentorship and technical guidance.

Machine Learning & Dev internship

10 April 2022 - 15 Aug 2022

NCAI NEDUET

- During my internship at NCAI (National Center for Artificial Intelligence), I gained hands-on experience in machine learning. My responsibilities included data labeling, web scraping, and assisting in model development.

EDUCATION

Doing Master in Software Engineering (Weekends)(GPA:3.7)

2025- 2027

NED University of Engineering and Technology

Bachelors in Computer & Information System Engineering (CGPA:3.25)

2019 - 2023

NED University of Engineering and Technology

FINAL YEAR PROJECT

AI Fashion Chek Using Deep Learning

An AI empowered Technology exploiting Fashion industry by generating High resolution Realistic Clothing Design. My role in FYP is Data Collection(Web Scrapping), Data Preprocessing , Algorithm implementation & Front End Portal.

PROJECTS

- Mall Management system using ASP.Net MVC
- Interior design web using ASP.Net MVC.C
- Ecommerce website.
- Freelancing Projects.
- Digital Notice Board (MBL)
- Temenos Core Banking Testing
- Alert Management in MBL.
- Mobile Applications Testing.

SKILLS

- C#
- SQL Server
- Javascript
- ASP.NET MVC
- Bootsttrap
- Material UI
- MYSQL

CERTIFICATES & ACHIEVEMENTS

- Outstanding Performance In Backend Application.
- Outstanding Performance In House Project Exhibition
